Woodworking Tools

About Freud

A manufacturer and marketer of superior carbide cutting tools for more than 50 years, Freud leads the industry in innovative manufacturing, precision products and quality service. Freud's product selection includes diamond-sharp saw blades, router bits, shaper cutters, planer knives and power tools.

Innovative Manufacturing

A world leader in the production of woodworking tools, Freud employs the most innovative, technologically advanced manufacturing operations in the world. To ensure that the highest quality products meet the toughest design standards, Freud owns and operates six manufacturing facilities in Western Europe. All of the facilities are ISO9001 Vision 2000 quality certified, and acknowledgment to top quality production processes.

Freud is one of the few manufacturers of woodworking tools in the world that produces its own MicroGrain Carbide with Titanium, called TiCo™, a combination of Titanium and Cobalt. Freud develops different types of carbide for each application to maximize the cutting life and performance of the tool. In addition, Freud operates one of the most modern product development research centers in Europe for cutting tools. By overseeing the entire manufacturing process, from start to finish, Freud guarantees the highest quality, most advanced products in the industry.

Precision Products

Freud engineers consistently develop revolutionary designs that set a new standard for high quality woodworking tools. Numerous Freud products have earned recognition and accolades from woodworking magazines for their superior quality endurance.

Quality Service

Freud's Lifetime Guarantee ensures that every Freud customer is satisfied. Nearly 40 Power Tool Service Stations across the United States are authorized to service Freud tools, ensuring you'll find help when you need it.
