sidings | Genuine Wood

### **Building Materials >>** Genuine Wood Siding

Wood, a unique and universal resource entrusted to Man by nature, is the material that has allowed humanity to develop life on the five continents. Although renewable, wood must be treated with respect to insure responsible use and sustainability. maibec's goal is to enhance the value of wood through the efficient and profitable production of useful goods.

maibec has been active in wood processing for more than 40 years. Initially manufacturing timber, maibec has constantly innovated in the development of a vast range of wood products for the construction and landscaping markets. Today, maibec counts three divisions :

- Wood sidings: genuine wood siding and white cedar shingle,
- Timber: lumber, mechanically graded wood, studs, lumber in various sizes,
- Horticultural mulches.

Already recognized by the industry and its customers for its products, maibec is orientating its efforts towards increased personalization. maibec wants to help build beautiful dream homes all across North America.

Respect, a profound value in this industry, is the essence of the sense of belonging and the outstanding work relations at maibec. Our team of almost 800 dedicated people is here to serve you in four regions of Québec: Saint-Pamphile in L'Islet, Saint-Théophile in the Beauce, Shawville in Outaouais and in Greater Quebec City.

For maibec management and employees, all our business partners - governments, financial institutions, materials and services suppliers, and professional associations - are essential to our progress and to the success of the industry. We confirm our ongoing intention to be a key economic actor through the creation of stable jobs and well being.
